Investment Milestone Proposal

\$1,000,000 Milestone-Based Investment

**\$50,000 ACTIVATION AT SIGNING – EVERY
ADDITIONAL DOLLAR GATED BY VERIFIED USER
PROOF**

Prepared for Phil and Investment Partners

Prepared by Lance Morrison (Founder & CEO) and Daniel Morrison (Co-Founder)

JUNE 2026 · CONFIDENTIAL

THE ASK

\$50,000 *to start.*

Initial Activation Investment: \$50,000 for 1% equity, released at signing.

Up to an **additional \$950,000** available through milestone-based financing, released only after agreed user, product, retention, and revenue benchmarks are met.

AT SIGNING	MILESTONE 1	MILESTONE 2	MILESTONE 3	MILESTONE 4	MILESTONE 5
\$50K	\$50K	\$150K	\$200K	\$250K	\$300K

*This is not a budget-based investment proposal. It is a **performance-gated** investment proposal — capital is released when Represent proves verified adoption, retention, public reporting, partner demand, and revenue.*

You fund proof, not promises. The first **\$50,000** is the only capital committed before 200 registered users — including at least 100 verified users — exist, and no stage after it releases until the prior stage's target is independently verified.

WHY NOW

Alberta has set the date.

- Alberta has a fixed **October 19, 2026** referendum timeline.
- Recent citizen-led activity has shown real demand for civic participation.
- Legacy petition systems can be slow, challengeable, and vulnerable to delay.
- Represent can test verified civic participation in a real market under real urgency.
- The milestone structure lets investors fund proof, not speculation.

The referendum creates urgency. The verified civic network creates the company.

October 19 creates the first concentrated test of demand; the verified civic network is the long-term asset.

50,000 verified users · first paid contract (government or organization) · \$10,000+ monthly recurring revenue · Series-Seed-ready data room.

WHAT THIS PROVES

Verified civic participation becomes recurring revenue.

USE OF FUNDS

User acquisition & campaign distribution

Sustained province-wide acquisition

Operations & founder execution

First marketing/community hire, scaled execution

Legal, compliance & investor readiness

Series Seed preparation, data room

Product & verification readiness

Security, scaling, dashboard scaling

REVENUE LOGIC

How verified civic participation becomes revenue.

NEAR-TERM REVENUE MODEL

- \$3/month consumer subscriptions
- Organization pilots
- Government or municipal pilots
- Sponsored civic reports or events, where appropriate
- Advertising as secondary revenue only

SUBSCRIPTION MATH

3,333 paid subscribers	≈ \$10,000 MRR
10,000 paid subscribers	= \$30,000 MRR
20,000 paid subscribers	= \$60,000 MRR

Milestone 5 is designed to prove that verified civic participation can become **recurring revenue**, not just user growth.

CIVIC FRAMEWORK

Prepare. Protect. Preserve.

Prepare.

Citizens verify before the next major issue arrives.

Protect.

Citizens respond through verified civic participation when public consent is needed.

Preserve.

Represent creates a transparent civic record of public will over time.

TRUST FRAMEWORK

Safe to use. Private to verify. Powerful to be counted.

Safe to use.

Represent is designed to protect against fake accounts, duplicate participation, and hidden result manipulation.

Private to verify.

Verification proves eligibility; it does not publicly attach a person's name to their vote.

Powerful to be counted.

Verified public consensus creates visibility, accountability, and a civic record that is harder to dismiss than ordinary polling.

These three beliefs — safety, privacy, and impact — are the adoption barriers Represent is built to solve in every market.

All civic votes conducted through Represent are independent public-consensus exercises and are not official government referendums unless separately authorized by the relevant public body.

FULLY-FUNDED

The investment of \$1,000,000 is offered at a **\$5,000,000 pre-money valuation (\$6,000,000 post-money) for 20% fully-funded.**

Proposed structure — equity released pro-rata with capital: rather than transferring the full 20% on signing, shares are issued as each milestone funds (1% at signing, then 1%, 3%, 4%, 5%, and 6% across Milestones 1–5 — totalling 20% at full funding). This protects both sides: the investor never holds equity beyond capital actually invested, and the company never sells a fifth of itself against funds that benchmarks may not unlock. Alternative implementations with identical economics (milestone-priced share issuances, or warrants vesting per milestone) are acceptable; **Final structure and documentation should be prepared by legal counsel in the form both parties agree is most appropriate.**

If the investor requires the full 20% on signing, the company requests a reciprocal commitment: milestones become obligations subject only to benchmark achievement (not discretionary), with an agreed remedy (equity clawback or buy-back at cost) for any milestone not funded after benchmarks are met.

Represent is not asking investors to fund a forecast. Represent is asking investors to fund **verified milestones**. Each tranche unlocks only after adoption, retention, partner, or revenue proof is achieved.
