JUNE 2026 · CONFIDENTIAL

## THE ASK

# \$50,000 *to start.*

Released at signing, for **1% of the company**. It activates Represent and funds the launch into Alberta's October 19 referendum – incorporation, advertising compliance, creative, and the first ad campaigns.

From there, up to **\$1,000,000 in total**, released in five further stages – each unlocked only when the previous stage's verified-user target is met:

| AT SIGNING | MILESTONE 1 | MILESTONE 2 | MILESTONE 3 | MILESTONE 4 | MILESTONE 5 |
|------------|-------------|-------------|-------------|-------------|-------------|
| \$50K      | \$50K       | \$150K      | \$200K      | \$250K      | \$300K      |

You fund proof, not promises. The first **\$50,000** is the only capital committed before 200 real, verified users exist – and no stage after it releases until the last stage's target is independently verified.

# Equity Terms

\$5,000,000

PRE-MONEY

\$6,000,000

POST-MONEY

20%

FULLY-FUNDED

The investment of \$1,000,000 is offered at a **\$5,000,000 pre-money valuation (\$6,000,000 post-money) for 20% fully-funded.**

**Proposed structure – equity released pro-rata with capital:** rather than transferring the full 20% on signing, shares are issued tranche-by-tranche as capital is deployed (1% at T0, 1% at M1, 3% at M2, 4% at M3, 5% at M4, 6% at M5 – totals 20% at full funding). This protects both sides: the investor never holds equity beyond capital actually invested, and the company never sells a fifth of itself against funds that benchmarks may not unlock. Alternative implementations with identical economics (tranche-priced share issuances, or warrants vesting per tranche) are acceptable; legal counsel at T0 papers whichever both parties prefer.

If the investor requires the full 20% on signing, the company requests a reciprocal commitment: tranches become obligations subject only to benchmark achievement (not discretionary), with an agreed remedy (equity clawback or buy-back at cost) for any tranche not funded after benchmarks are met.
