

MILESTONE ONE – INVESTOR BRIEF

Building Alberta's First Verified Citizen Network

OBJECTIVE

Represent is seeking capital to execute Milestone One: the creation of Alberta's first verified citizen network.

Over the next quarter, Represent will focus exclusively on Alberta user acquisition, verification, and engagement across five strategic constituencies: regionally engaged citizens, citizen accountability, municipal residents, youth, and community organizations.

The goal is to prove that real citizens will verify identity and residency, and participate in geographically authenticated votes on issues that affect them – politically neutral, across the spectrum.

MILESTONE TARGET

10,000

Verified Albertans

- Identity
- Residency
- Geographic eligibility
- One person, one voice

STRATEGIC VALUE

A verified citizen network is not an email list. It is a civic infrastructure asset.

Proof of demand	Proof of trust
Identity & residency verification	Citizen engagement
Early revenue validation	Repeatable deployment model

Five Alberta Acquisition Verticals

ACQUISITION STRATEGY

01

Regional Identity & Civic

Alberta's Future Belongs to Albertans

Provincial: autonomy, resources, pensions, policy.

02

Citizen Accountability

Government Should Listen Every Day

Taxation, affordability, healthcare, education, safety.

03

Municipal Communities

Your Neighbourhood. Your Voice.

Ward-level: zoning, taxes, transit, local priorities.

04

Youth & Students

Don't Wait Your Turn. Verify Your Voice.

Voice Now + Represent Academy: participation + literacy.

05

Community Organizations

Your Members. Your Mandate.

Condo boards, associations, non-profits, faith groups.

REVENUE VALIDATION

Milestone One validates three revenue streams

Organizations

NEAR-TERM ENGINE

Unions, associations, municipalities pay for governance & voting tools – \$5K-\$50K annual contracts.

Government & institutional

CONTRACT REVENUE

Verified public-consultation tooling sold to government and institutional buyers as contracts.

Consumer premium

\$3 / MONTH

Power features (analytics, monitoring) for engaged users beyond the free core.

EXPANSION PATH

Prove the model in Alberta. Then export it.

PHASE 1 Alberta

Build the first verified citizen network and prove the launch model.

PHASE 2 Western Canada

Saskatchewan, Manitoba, British Columbia using the Alberta playbook.

PHASE 3 Anglosphere

United States, Ireland, United Kingdom, Australia, New Zealand.

PHASE 4 Global Deployment

Geographically authenticated governance infrastructure worldwide.

INVESTMENT PURPOSE

Investor capital funds the first measurable proof point: a verified Alberta network that becomes the foundation for national and international expansion.

- Capital will be used for
- Alberta user acquisition

→ Issue-based campaigns

→ Governance literacy

→ Product improvements
- Verification costs

→ Community ambassadors

→ Organizational pilots

→ Early revenue validation

STRATEGIC OUTCOME

A verified, geographically authenticated citizen network capable of measuring public sentiment at the provincial, municipal, organizational, and community level in real time.

That network becomes the launch asset for Western Canada, the Anglosphere, and global civic infrastructure.

Represent is proving the future of governance in Alberta first – then scaling it to the world.
