Investment Milestone Proposal

\$1,000,000 Milestone-Based Investment

Verification costs covered separately · up to \$20,000

**\$50,000 ACTIVATION AT SIGNING — THE 200-
USER PROOF GATES EVERY DOLLAR AFTER**

Prepared for Phil and Investment Partners

Prepared by Lance Morrison (Founder & CEO) and Daniel Morrison (Co-Founder)

JUNE 2026 · CONFIDENTIAL

REVISION NOTE · V4

What changed from the previous draft — and why

One fact reshapes the entire plan:

Alberta votes in an official 10-question provincial referendum on October 19, 2026 — 129 days from now.

Represent's "Shadow Referendum" is already live: all 10 official ballot questions, verbatim wording, open only to identity-verified Albertans, voteable from a browser or the iOS app.

This is a once-in-a-decade user-acquisition event aimed directly at our product, with a built-in deadline, daily media coverage, and an audience actively looking for ways to be heard. The previous draft scheduled paid acquisition for Months 3-6 — *after* the referendum. This version re-sequences the same 18-month horizon around the countdown — six gates, with \$50,000 released at signing, so that capital is deployed when attention is cheapest and conversion is highest.

What stays the same: the proof-gated logic (demand → traction → engagement → government adoption → revenue), the \$1,000,000 total, verification cost coverage, and investor protections — now with a \$50,000 activation tranche at signing, gated forward by the 200-user proof. **What moves:** the calendar, the order in which we earn each proof, and the frame: **Prepare. Protect. Preserve.** Verify before the issue arrives; respond with verified neighbours in real time; preserve a permanent record of public will. “If they delay the question, we can still count the answer.”

POSITIONING NOTE — BUILT INTO ALL MARKETING

Represent does not replace, compete with, or simulate Elections Alberta. Every public material carries the line: *“Represent is an independent civic platform. The Shadow Referendum is an unofficial, non-binding public opinion measure.”* Our claim is narrower and stronger: we are the only measure of Alberta opinion built entirely from identity-verified residents — and on October 19, our count can be compared against the official result, in public. Either outcome is a story.

● THE SHADOW REFERENDUM IS LIVE — BROWSER AND IOS

SIX GATES · EIGHTEEN MONTHS

Milestone Summary

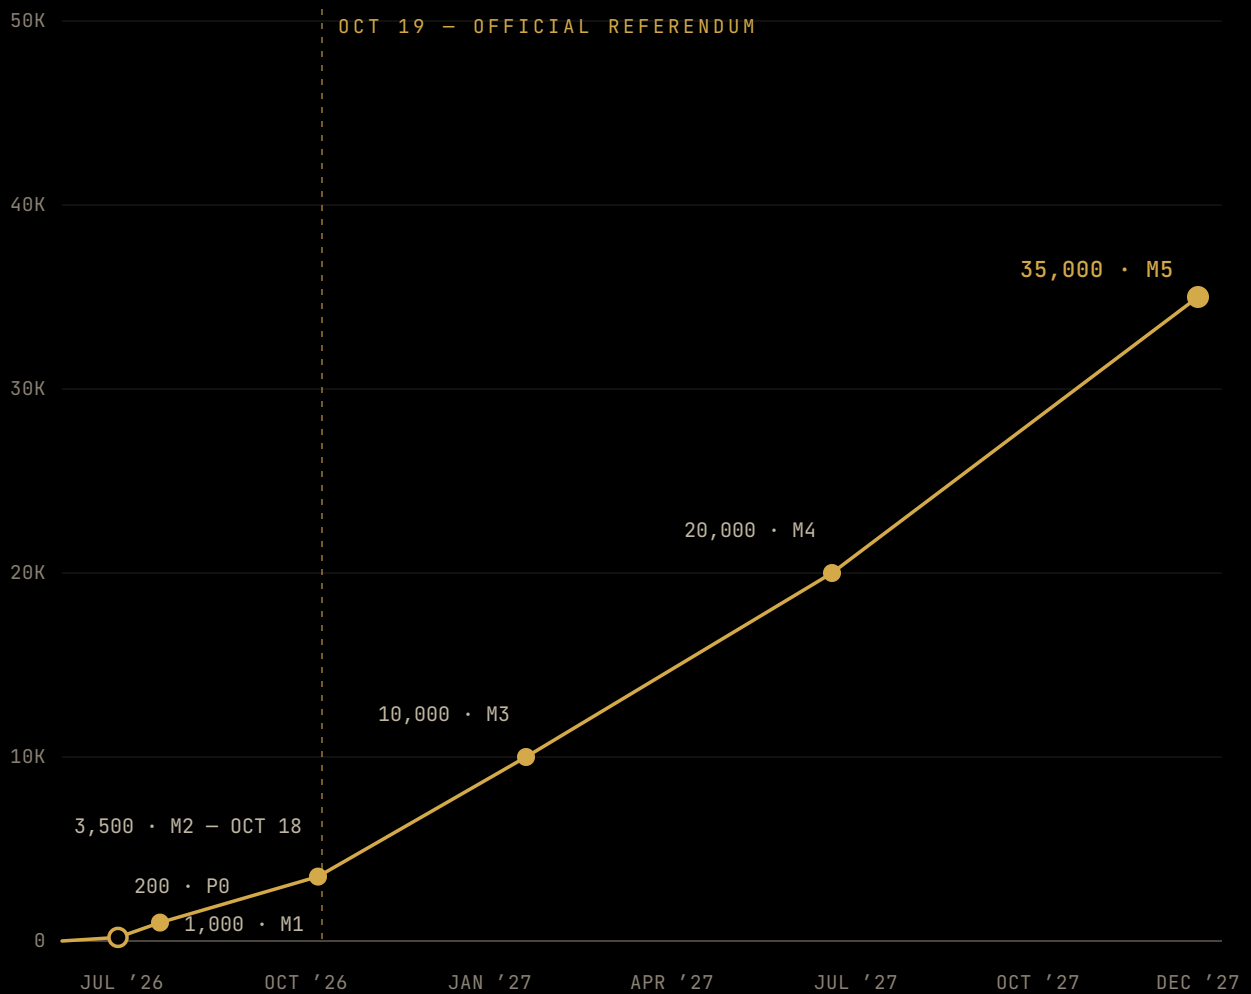

PH	MILESTONE · WINDOW	WHAT IT PROVES	TRANCHE
T0	Activation & Proof AT SIGNING (JUL)	<i>Foundation + campaign engine, before August</i>	\$50,000
1	Proof & Readiness MONTH 1 (AUG)	<i>People sign up; the engine scales on proof</i>	\$50,000
2	Alberta Verified — the Referendum Sprint MONTHS 2-4 (SEP → OCT 18)	<i>Albertans will verify identity at scale</i>	\$150,000
3	The Results Moment & Retention MONTHS 4-7 (OCT 19 → JAN)	<i>The platform survives its event; users stay & engage</i>	\$200,000
4	Government Validation & Expansion MONTHS 7-12 (FEB → JUN 2027)	<i>Officials and governments adopt</i>	\$250,000
5	Scale & Revenue MONTHS 12-18 (JUL → DEC 2027)	<i>The market exists and will pay</i>	\$300,000

CUMULATIVE VERIFIED-USER TARGETS

200 registered (gate) → 1,000 verified (M1) → 3,500 (M2, by Oct 18) → 10,000 (M3) → 20,000 (M4) → **35,000** (M5)

0 → 35,000 IN EIGHTEEN MONTHS

Cumulative verified-user trajectory

Verified users, cumulative, June 2026 → December 2027. Milestone targets plotted at the close of each window. The open dot marks Phase 0's 200 *registered* users – the proof gate before Tranche 2 (M1) releases.

SECTION 01 / 06

01

T0 — Activation & Proof

TRANCHE \$0 · AT SIGNING (JULY) · TARGET 200 REGISTERED USERS

T0 releases at signing – 5% of the round, spent on auditable foundation items, with equity issued pro-rata (1% if the structure stops here). The original zero-dollar gate was designed before the product was live; that de-risking has happened. What can't wait is the clock: compliance, creative, and first paid tests must run in July. The 200-user proof still gates every dollar after T0.

COMMITMENTS – VERIFIED BEFORE M1 RELEASES

- 200 registered users – real, unique individuals (no test accounts or duplicates)
- Majority located in Alberta
- iOS app live on the App Store (*complete*)
- Browser voting flow operational – visitors can verify and vote with no app install (*complete*)
- Shadow Referendum live with all 10 official questions (*complete*)

HOW THE FOUNDERS GET THE 200 (LOW SPEND)

- Personal network: friends, family, alumni (U of C, Mount Royal, SALT), colleagues
- Founder-transparency posts on Reddit (r/alberta, r/Calgary, r/Edmonton), X, Instagram, LinkedIn
- One-to-one outreach to petition signers, civic activists, and community leaders already frustrated by the petition process
- The shareable hook: every proposal has a public link with a live tally – a recipient can verify and vote from their browser in ~3 minutes

EVIDENCE PACKAGE TO INVESTOR

Registered-user count from the database (investor may audit), geographic split, drop-off funnel (registered → verified → voted), and a candid one-page summary of objections heard.

Investor exposure at T0:
\$50,000 • 1% equity.

The 18-month milestone clock starts when T0 funds are released at signing.

T0 · ACTIVATION & PROOF

\$50,000

Budget — T0

CATEGORY	BUDGET	NOTES
Corporate legal (equity, governance)	\$8,000	Shareholder agreement, articles
Election advertising compliance	\$3,000	Elections Alberta third-party rules
Security audit (engagement)	\$5,000	Balance paid in M1
Brand & ad creative production	\$5,000	Statics, video, per-question cards
Paid acquisition tests	\$8,000	CAC discovery across 4 channels
Stampede street team	\$2,500	QR materials, 2 brand reps (Jul 3–12)
Creator tests (3–5 Alberta micro)	\$2,500	Balanced roster, neutrality clauses
Infrastructure	\$125	1 month
Founder salaries	\$15,000	1 month – two founders @ \$7,500
Performance reserve	\$875	CAC-rule deployment
TOTAL	\$50,000	–

SECTION 02 / 06

02

Milestone 1 — Proof & Readiness

TRANCHE \$100,000 · MONTH 1 (AUGUST 2026) · GATE: 200 USERS + T0 COMMITMENTS

Releases when the 200-user proof and every T0 commitment are verified. One job: scale what T0 built – winning channels get the budget, the audit completes, and the first public report ships. Android stays deferred: the browser voting flow already serves Android users, so a port before October would burn the scarcest resource (time) for near-zero referendum impact.

BENCHMARKS

- Security audit complete; report shared with the investor
- CAC baseline documented by channel, from T0's paid tests
- **Verified Alberta Pulse #1 published – where 1,000 verified Albertans stand** – the first public report; reusable for media, partners, and the investor
- Weekly public tally cadence running ("Sunday count") – the recurring content engine
- First PR wave landed: CBC Calgary/Edmonton, Herald, Western Standard, talk radio
- Paid acquisition scaled into the best-CAC channels from T0 testing
- **1,000 verified users** (from ~200 registered – the first paid + organic conversion proof)
- Founder media availability – every Alberta show that will have us

CAMPAIGN ACTIONS THIS MONTH

- **Scale paid:** \$16k into the verified-user channels that won T0's tests, ahead of the M2 sprint
- **Calgary Stampede window (July 3–12):** street team with QR cards at Stampede-adjacent venues – zero-booth-cost guerrilla presence at Alberta's largest gathering
- **PR groundwork:** pitch the "verified shadow referendum" story to CBC Calgary/Edmonton, Calgary Herald, Western Standard, talk radio (QR77, 630 CHED) – radio has daily referendum airtime to fill
- First 3–5 micro-influencer test partnerships (Alberta civic/news creators)

MILESTONE 1 · PROOF & READINESS

\$50,000

Budget — Milestone 1

CATEGORY	BUDGET	NOTES
Security audit (completion)	\$7,000	Report shared with investor
Paid acquisition	\$16,000	Scaled into best-CAC channels
Content creation	\$4,000	Pulse #1 report, weekly tally series
Creator partnerships	\$4,000	Expanding the test roster
Community management	\$2,000	Moderation, support
Infrastructure	\$125	1 month
Founder salaries	\$15,000	1 month – two founders @ \$7,500
Performance reserve	\$1,875	CAC-rule deployment
TOTAL	\$50,000	–

SECTION 03 / 06

03

Milestone 2 — Alberta Verified: the Referendum Sprint

TRANCHE \$150,000 • MONTHS 1-4 (AUG 1 → OCT 18) • TARGET 5,000 VERIFIED

CAMPAIGN NAME

“Alberta Verified — be counted before October 19.”

The urgency line: don't wait for institutions to decide when your voice matters; verify now so you're counted when Alberta decides.

This is the proof the entire company rests on: that real Albertans will complete government-ID verification at scale, for a civic purpose, in a fixed window. Everything is pointed at one province for eleven weeks.

BENCHMARKS

- 3,500 verified users (80%+ in Alberta) – floor 2,500 with one 30-day extension
- Verification completion rate above 50% (started → verified)
- 100+ community-created proposals beyond the referendum questions
- Partner activation started – organizers, student associations, business & parent groups run partner-led votes
- Earned media: 3+ stories in Alberta outlets
- Sunday tally series published every week without exception

REFERRAL ENGINE (ALREADY BUILT)

Every verified user gets an invite code; both sides earn a free month of premium when the invitee verifies. Cash cost ≈ \$0; tracked weekly.

MILESTONE 2 · MARKETING PLAN

Paid digital ≈\$58k across the sprint

- **Meta (Instagram/Facebook):** Alberta 18–65, interest-targeted (provincial politics, news, community pages) – the workhorse channel
- **TikTok:** 18–34 Alberta; creative leans on the countdown and the “every poll can be botted – this one can’t” hook
- **Reddit:** r/alberta, r/Calgary, r/Edmonton promoted posts
- **Google Search:** “alberta referendum questions,” “alberta referendum poll,” “october 19 referendum” – high-intent traffic straight to the landing page
- **Retargeting:** visitors who opened a /p/ link but didn’t verify
- All referendum-adjacent ads run only after compliance clearance from M1

Creators ≈\$10k

10–15 Alberta micro-influencers (civic, news-explainer, community) – brief: explain one referendum question, link the matching public vote page. Both-sides creators deliberately balanced; neutrality is contract language.

Grassroots ≈\$7k

- Campus activations at U of C, Mount Royal, SAIT, U of A in September (fall semester)
- Farmers markets + community events street teams, Calgary and Edmonton, weekends
- QR poster runs: coffee shops, community halls, campus boards, gun shows and farmers markets alike – the platform is for everyone, visibly
- Community associations; density waves – Calgary, Edmonton, Red Deer, Lethbridge, Grande Prairie, Fort McMurray, rural Alberta

PR & earned ≈\$4k

- The pitch: “the only verified count of Alberta opinion – checkable against the official result October 19.” Plus data stories from aggregate tallies (“verified Albertans split 58/42 on Q7”) offered as exclusives to alternating outlets
- Op-ed: the 386,698-signature petition that was dismissed as bots, and what verification changes
- Weekly talk-radio availability – founder does every show that will have him

CAC MODEL — THE MATH BEHIND 3,500

Blended target of ≤\$14 per verified user – paid-social verified CAC modeled at \$20–25 (visit CAC \$4–6 × 30–40% verification completion, helped by the no-install browser flow), pulled down by organic (PR, Reddit, share-loop) at 30–35% of volume and referrals at ~10%. \$58k paid ≈ 2,400 verified; organic/referral/earned ≈ 1,100. Reported weekly per channel; the floor and extension are defined in advance so a near-miss can’t become a dispute.

MILESTONE 2 · ALBERTA VERIFIED

\$150,000

Budget — Milestone 2

CATEGORY	BUDGET	NOTES
Meta ads (Instagram/Facebook)	\$30,000	Primary acquisition channel
TikTok ads	\$12,000	18–34 Alberta
Google Search ads	\$8,000	High-intent referendum queries
Reddit ads	\$4,000	Alberta subreddits
Retargeting	\$4,000	Started but didn't verify
Creator partnerships (10–15)	\$10,000	Balanced roster, neutrality clauses
Campus & street activations	\$5,000	4 campuses + weekend street teams
QR posters & print	\$2,000	Province-wide poster runs
PR & media outreach	\$4,000	Pitching, press materials, op-ed placement
Content creation	\$8,000	Weekly tally graphics, video, ad refresh
Community management	\$5,000	Moderation, user support
Referral program ops	\$1,000	Tracking (rewards are premium months)
Infrastructure	\$250	2 months
Founder salaries	\$30,000	2 months – two founders @ \$7,500
Performance reserve	\$26,750	Final-3-weeks surge into best CAC
TOTAL	\$150,000	–

Verification costs ($3,500 \times \$0.40 = \$1,400$) covered by the investor's separate verification budget.

SECTION 04 / 06

04

Milestone 3 — The Results Moment & Retention

TRANCHE \$200,000 · MONTHS 4-7 (OCT 19 → JAN 2027) · TARGET 15,000 VERIFIED

October 19 is not the end of the campaign — it's the single biggest **credibility event** in the company's life.

The official results land, and Represent publishes the comparison: verified shadow count vs. official outcome, question by question. If they track, no other polling product in Canada can make that claim. If they diverge, the analysis of *why* (turnout demographics, verified-only sample) is itself a national story. Either way: we are the only ones who can have this conversation with receipts.

This milestone proves the platform outlives its launch event — the original “engagement” validation, now with a stronger hand.

- RESULTS COMPARISON PUBLISHED AT A PERMANENT PUBLIC URL

BENCHMARKS

- 10,000 verified users – floor 7,500 with one 30-day extension
- 30-day retention above 25%; average user has voted on 5+ proposals
- 500+ community-created proposals
- Results-comparison report published and covered by national media (2+ national stories)
- Alberta Verified Dashboard live – public stats page, refreshed weekly
- Users in 3+ Canadian provinces (Alberta case study → national curiosity)
- 2+ organization pilots started (community league, union local, association – paid or unpaid)

MARKETING PLAN

- **Referendum night:** results watch event in Calgary (livestream + venue), real-time shadow-vs-official comparison dashboard, press invited – the single best earned-media moment we will ever get; budgeted properly
- **The comparison report:** designed, public, permanent URL – becomes the company's flagship credibility asset for investors, journalists, and government buyers
- National PR push off the report; founder availability tour (national radio, podcasts)
- Paid acquisition continues in Alberta (retention cohorts) + expansion tests in Saskatchewan, BC, Ontario keyed to live local issues (Vancouver housing, Toronto transit)
- Retention engineering: push-notification programs (deadline reminders, results alerts – already built), weekly civic digest, badges/streaks
- SaaS North (Ottawa, Nov) – first investor/B2G conference outing, case study in hand

MILESTONE 3 · THE RESULTS MOMENT & RETENTION

\$200,000

Budget — Milestone 3

CATEGORY	BUDGET	NOTES
Referendum-night event + dashboard	\$8,000	Venue, production, press hosting
Results comparison report (design/data)	\$4,000	Flagship credibility asset
PR & media (national)	\$8,000	Report rollout, founder tour
Paid ads (Alberta + 3 provinces + retargeting)	\$70,000	Retention + expansion tests
Creator partnerships	\$8,000	National civic/news creators
Content creation	\$10,000	City-specific creative, digest, video
Community management	\$8,000	Scaled moderation + support
SaaS North (Ottawa, Nov)	\$3,500	B2G positioning, investors
Org pilot enablement	\$3,000	Onboarding materials, demos
Infrastructure	\$375	3 months
Founder salaries	\$45,000	3 months – two founders @ \$7,500
Performance reserve	\$32,125	Post-result momentum flexes here
TOTAL	\$200,000	–

Verification costs (6,500 new × \$0.40 = \$2,600) covered separately.

SECTION 05 / 06

05

Milestone 4 — Government Validation & Expansion

TRANCHE \$250,000 · MONTHS 7-12 (FEB → JUN 2027) · TARGET 30,000 VERIFIED

The investor's core question: will governments and officials adopt? We now answer it holding an asset no competitor has – *the Alberta case study*: a verified civic count of a real provincial referendum, compared against official results, with press coverage. Government outreach leads with that document.

BENCHMARKS

- 20,000 verified users; presence in 5+ Canadian cities
- 2+ elected officials or candidates actively using Represent with constituents
- 1 municipal pilot initiated OR 3 paid organization contracts – no deadlock on one council's calendar
- LOI or formal interest from 1+ additional municipality
- Media coverage of the government use case
- Android app live on Google Play (now worth the build: national scale demands it)
- US entry test: 1 US city campaign

MARKETING PLAN

- Paid digital expands to 6–8 Canadian cities + 2–3 US test cities; city-specific creative
- LinkedIn campaigns: municipal employees, city managers, clerks, public-engagement staff
- Municipal election-cycle campaigns where applicable – candidates as power users
- **Government Pilot Program:** free 90-day municipal trial, 3+ councillors onboard
- **Municipal roadshow:** in-person to 3–5 Alberta/BC councils; FCM Conference (direct access to municipal decision-makers nationwide); Code for America Summit (DC) for civic-tech credibility and US contacts
- **Org sales motion:** unions, associations, school councils – repeatable pilot playbook from M3's first two

MILESTONE 4 · GOVERNMENT VALIDATION & EXPANSION

\$250,000

Budget — Milestone 4

CATEGORY	BUDGET	NOTES
Paid ads (national + US + LinkedIn + election-cycle)	\$90,000	8-10 cities; government targeting
Creator partnerships	\$10,000	20+ creators across markets
Content & case-study production	\$10,000	The Alberta case study package
PR & media (national + US)	\$5,000	Government-adoption angle
Android development & QA (contract)	\$8,000	Play Store launch
FCM Conference	\$4,000	Municipal decision-makers
Code for America Summit (DC)	\$3,500	Civic-tech, gov contacts
Municipal roadshow + sales materials	\$6,000	Council presentations, pilot decks
Community management	\$8,000	Scaled
Infrastructure	\$625	5 months
Founder salaries	\$75,000	5 months – two founders @ \$7,500
Performance reserve	\$29,875	CAC-rule deployment
TOTAL	\$250,000	–

Verification costs (10,000 new × \$0.40 = \$4,000) covered separately.

SECTION 06 / 06

06

Milestone 5 — Scale & Revenue

TRANCHE \$300,000 · MONTHS 12-18 (JUL → DEC 2027) · TARGET 50,000 VERIFIED

The final milestone proves Represent is a business: paying customers, documented unit economics, and a data room that supports a Series Seed at a step-up valuation.

BENCHMARKS

- 35,000 verified users
- 1+ paid government contract generating revenue
- \$10,000+ MRR from orgs + consumer premium; unit economics documented (CAC, LTV, retention)
- First hire made (marketing/community)
- Series Seed materials complete: deck, data room, 18 months of audited traction
- Product roadmap and 12-month hiring plan

MARKETING PLAN

- Full-scale Canadian campaigns + sustained US presence; programmatic awareness layer
- **SEO & content:** own “civic engagement platform,” “verified polling,” “public consultation software”
 - the B2G search funnel
- Web Summit Vancouver (May 2027, ALPHA program) and a self-hosted **Future of Democracy** event in Calgary – thought-leadership positioning
- Convert M4 pilots to paid annual municipal contracts; org premium tiers scale
- **Series Seed process:** targeted outreach with the referendum case study + revenue proof

- **EXIT STATE: 35,000 VERIFIED USERS, REVENUE, AND AN AUDITABLE 18-MONTH TRACK RECORD**

MILESTONE 5 · SCALE & REVENUE

\$300,000

Budget — Milestone 5

CATEGORY	BUDGET	NOTES
Paid digital (all channels + programmatic)	\$78,000	North American scale
SEO & content marketing	\$20,000	B2G organic funnel + content
Creator program	\$8,000	Ongoing
PR & media	\$5,000	Scale story
Web Summit Vancouver	\$4,000	ALPHA program, travel
Future of Democracy event (Calgary)	\$5,000	Self-hosted flagship
Government conference circuit	\$3,000	Provincial/state events
First hire — marketing/community	\$40,000	Contract → full-time ramp
Government sales (travel, demos)	\$5,000	Pilot conversion
Series Seed preparation	\$10,000	Deck, data room, legal
Community management	\$6,000	Transitioning to hire
Infrastructure	\$750	6 months
Founder salaries	\$90,000	6 months — two founders @ \$7,500
Performance reserve	\$25,250	Scale what works
TOTAL	\$300,000	—

Verification costs (15,000 new × \$0.40 = \$6,000) covered separately.

ALL SIX TRANCHES · EIGHTEEN MONTHS

TOTAL	\$1,000,000	\$20,000	\$1,020,000

ALLOCATION OF THE \$1,000,000

Where the million goes

- ~49% Marketing, creators, content, events & PR – half the round to growth
- 27% Founder salaries – two founders @ \$7,500/mo, 18 months
- ~12% Performance reserve – rule-bound, deployed only into channels beating the CAC target
- ~12% Everything else – legal, audit, Android, first hire, community, infrastructure

~38% of the \$1M goes to marketing, creators, content, events, and PR. 27% to founder salary. ~20% held in contingency, deployed tranche-by-tranche into whichever channel is posting the best verified-user CAC. Infrastructure is under 0.25% – the founder builds and maintains the entire product with a \$125/month stack.

JUL 2026 → ONGOING

Event & Conference Calendar

EVENT	LOCATION	DATE	BUDGET	PURPOSE
Calgary Stampede street presence	Calgary	Jul 3-12, 2026	\$2,500	Guerrilla QR presence at Alberta's largest event
Campus activations (×4)	Calgary + Edmonton	Sep 2026	\$5,000	U of C, MRU, SAIT, U of A
Elevate Festival	Toronto	Sep 2026	\$2,500	Pitch, investors, press
Referendum Results Night	Calgary	Oct 19, 2026	\$8,000	The credibility event – press, live comparison
SaaS North	Ottawa	Nov 2026	\$3,500	B2G SaaS, investors
Code for America Summit	Washington D.C.	Spring 2027	\$3,500	Civic tech, gov contacts
FCM Conference	Canada	2027	\$4,000	Municipal decision-makers
Web Summit Vancouver	Vancouver	May 2027	\$4,000	Global startup stage
Future of Democracy (self-hosted)	Calgary	2027	\$5,000	Thought leadership
Platform Calgary demo nights	Calgary	Ongoing	Free	Local community
Government events circuit	Various	Ongoing	\$3,000	Provincial/state
TOTAL			\$38,500	

Reporting & Investor Protections

- **Activation & gate:** \$50,000 releases at signing; the 200-user proof, verified by both parties, gates M1 and every tranche after
- **No tranche releases until all benchmarks for the prior milestone are independently verified** (database audit access offered)
- **Monthly reporting:** financials, verified-user growth, channel-by-channel CAC and ROAS, retention cohorts, event ROI, top three risks – one page plus appendix
- Board seat or observer rights for the investor or representative
- Floors & extensions: M2/M3 user benchmarks carry a $\approx 70\%$ floor plus one 30-day extension, defined in advance; missing the floor beyond it pauses future tranches
- Reserve rules: the performance reserve deploys only into channels beating that milestone's CAC target, reported monthly · quarterly financial statements · full spend transparency
- **Compliance:** Elections Alberta third-party advertising rules cleared before any paid referendum-adjacent spend; permanent platform ban on political advertising; all public materials carry the independence/non-binding disclaimer

Equity Terms

\$5,000,000

PRE-MONEY

\$6,000,000

POST-MONEY

20%

FULLY-FUNDED

The investment of \$1,000,000 is offered at a **\$5,000,000 pre-money valuation (\$6,000,000 post-money) for 20% fully-funded.**

Proposed structure — equity released pro-rata with capital: rather than transferring the full 20% on signing, shares are issued tranche-by-tranche as capital is deployed (1% at T0, 1% at M1, 3% at M2, 4% at M3, 5% at M4, 6% at M5 — totals 20% at full funding). This protects both sides: the investor never holds equity beyond capital actually invested, and the company never sells a fifth of itself against funds that benchmarks may not unlock. Alternative implementations with identical economics (tranche-priced share issuances, or warrants vesting per tranche) are acceptable; legal counsel at T0 papers whichever both parties prefer.

If the investor requires the full 20% on signing, the company requests a reciprocal commitment: tranches become obligations subject only to benchmark achievement (not discretionary), with an agreed remedy (equity clawback or buy-back at cost) for any tranche not funded after benchmarks are met.

WHY THIS PLAN, IN ONE PARAGRAPH

Alberta is about to hold the most-watched provincial vote in a generation, and Represent is the only platform on which the same ten questions are being answered exclusively by identity-verified Albertans, with results that anyone can audit. This plan spends the investor's first dollars where attention is cheapest — the 129 days before October 19 — banks the credibility event of the official-versus-verified comparison, and then sells that proof up the chain: to retained users, to organizations, to municipalities, and ultimately to a Series Seed with eighteen months of audited traction. Beyond the activation tranche, every dollar buys a specific proof, and none is released until the previous proof exists.
