# Investment Milestone Proposal

\$1,000,000 Milestone-Based Investment

---

**\$50,000 ACTIVATION AT SIGNING – EVERY  
ADDITIONAL DOLLAR GATED BY VERIFIED USER  
PROOF**

---

Prepared for Phil and Investment Partners

Prepared by Lance Morrison (Founder & CEO) and Daniel Morrison (Co-Founder)

JUNE 2026 · CONFIDENTIAL

## THE ASK

# \$50,000 *to start.*

**Initial Activation Investment:** \$50,000 for 1% equity, released at signing.

Up to **an additional \$950,000** available through milestone-based financing, released only after agreed user, product, retention, and revenue benchmarks are met.

| AT SIGNING | MILESTONE 1 | MILESTONE 2 | MILESTONE 3 | MILESTONE 4 | MILESTONE 5 |
|------------|-------------|-------------|-------------|-------------|-------------|
| \$50K      | \$50K       | \$150K      | \$200K      | \$250K      | \$300K      |

You fund proof, not promises. The first **\$50,000** is the only capital committed before 200 real, verified users exist – and no stage after it releases until the last stage’s target is independently verified.

## WHY NOW

# Alberta has set the date.

- Alberta has a fixed **October 19, 2026** referendum timeline.
- Recent citizen-led activity has shown real demand for civic participation.
- Legacy petition systems can be slow, challengeable, and vulnerable to delay.
- Represent can test verified civic participation in a real market under real urgency.
- The milestone structure lets investors fund proof, not speculation.

*The referendum creates urgency. The verified civic network creates the company.*

Milestone 5 is designed to prove that verified civic participation can become **recurring revenue**, not just user growth.

**CIVIC FRAMEWORK**

# Prepare. Protect. Preserve.

## Prepare.

Citizens verify before the next major issue arrives.

## Protect.

Citizens respond through verified civic participation when public consent is needed.

## Preserve.

Represent creates a transparent civic record of public will over time.

**TRUST FRAMEWORK**

# **Safe to use. Private to verify. Powerful to be counted.**

## **Safe to use.**

Represent is designed to protect against fake accounts, duplicate participation, and hidden result manipulation.

## **Private to verify.**

Verification proves eligibility; it does not publicly attach a person's name to their vote.

## **Powerful to be counted.**

Verified public consensus creates visibility, accountability, and a civic record that is harder to dismiss than ordinary polling.

# Equity Terms

**\$5,000,000**

PRE-MONEY

**\$6,000,000**

POST-MONEY

**20%**

FULLY-FUNDED

The investment of \$1,000,000 is offered at a **\$5,000,000 pre-money valuation (\$6,000,000 post-money) for 20% fully-funded.**

**Proposed structure — equity released pro-rata with capital:** rather than transferring the full 20% on signing, shares are issued as each milestone funds (1% at signing, then 1%, 3%, 4%, 5%, and 6% across Milestones 1–5 — totalling 20% at full funding). This protects both sides: the investor never holds equity beyond capital actually invested, and the company never sells a fifth of itself against funds that benchmarks may not unlock. Alternative implementations with identical economics (milestone-priced share issuances, or warrants vesting per milestone) are acceptable; legal counsel at signing papers whichever both parties prefer.

**Final structure to be documented by legal counsel.**

If the investor requires the full 20% on signing, the company requests a reciprocal commitment: milestones become obligations subject only to benchmark achievement (not discretionary), with an agreed remedy (equity clawback or buy-back at cost) for any milestone not funded after benchmarks are met.
