JUNE 2026 · CONFIDENTIAL

THE ASK

\$50,000 *to start.*

Released at signing, for **1% of the company**. It activates Represent and funds the launch into Alberta's October 19 referendum – incorporation, advertising compliance, creative, and the first ad campaigns.

From there, up to **\$1,000,000 in total**, released in five further phases – each unlocked only when the previous stage's verified-user target is met:

AT SIGNING	MILESTONE 1	MILESTONE 2	MILESTONE 3	MILESTONE 4	MILESTONE 5
\$50K	\$50K	\$150K	\$200K	\$250K	\$300K

You fund proof, not promises. The first **\$50,000** is the only capital committed before 200 real, verified users exist – and no stage after it releases until the last stage's target is independently verified.

Equity Terms

\$5,000,000

PRE-MONEY

\$6,000,000

POST-MONEY

20%

FULLY-FUNDED

The investment of \$1,000,000 is offered at a **\$5,000,000 pre-money valuation (\$6,000,000 post-money) for 20% fully-funded.**

Proposed structure — equity released pro-rata with capital: rather than transferring the full 20% on signing, shares are issued phase-by-phase as capital is deployed (1% at T0, 1% at M1, 3% at M2, 4% at M3, 5% at M4, 6% at M5 — totals 20% at full funding). This protects both sides: the investor never holds equity beyond capital actually invested, and the company never sells a fifth of itself against funds that benchmarks may not unlock. Alternative implementations with identical economics (phase-priced share issuances, or warrants vesting per phase) are acceptable; legal counsel at T0 papers whichever both parties prefer.

If the investor requires the full 20% on signing, the company requests a reciprocal commitment: phases become obligations subject only to benchmark achievement (not discretionary), with an agreed remedy (equity clawback or buy-back at cost) for any phase not funded after benchmarks are met.
