Investment Milestone Proposal

\$1,000,000 Milestone-Based Investment

**\$50,000 ACTIVATION AT SIGNING – EVERY
ADDITIONAL DOLLAR GATED BY VERIFIED USER
PROOF**

Prepared for Phil and Investment Partners

Prepared by Lance Morrison (Founder & CEO) and Daniel Morrison (Co-Founder)

JUNE 2026 · CONFIDENTIAL

THE ASK

\$50,000 *to start.*

Initial Activation Investment: \$50,000 for 1% equity, released at signing.

Up to **an additional \$950,000** available through milestone-based financing, released only after agreed user, product, retention, and revenue benchmarks are met.

AT SIGNING	MILESTONE 1	MILESTONE 2	MILESTONE 3	MILESTONE 4	MILESTONE 5
\$50K	\$50K	\$150K	\$200K	\$250K	\$300K

You fund proof, not promises. The first **\$50,000** is the only capital committed before 200 registered users – including at least 100 verified users – exist, and no stage after it releases until the prior stage’s target is independently verified.

WHY NOW

Alberta has set the date.

- Alberta has a fixed **October 19, 2026** referendum timeline.
- Recent citizen-led activity has shown real demand for civic participation.
- Legacy petition systems can be slow, challengeable, and vulnerable to delay.
- Represent can test verified civic participation in a real market under real urgency.
- The milestone structure lets investors fund proof, not speculation.

The referendum creates urgency. The verified civic network creates the company.

October 19 creates the first concentrated test of demand; the verified civic network is the long-term asset.

ACTIVATION + FIVE MILESTONES · EIGHTEEN MONTHS

Milestone Summary

#	MILESTONE · WINDOW	WHAT IT PROVES	FUNDING
—	Activation — foundation & launch AT SIGNING (JUL)	Foundation + campaign engine, before August	\$50,000
1	Prove — first verified Albertans MONTH 1 (AUG)	People sign up; the engine scales on proof	\$50,000
2	Alberta Verified — the Referendum Sprint MONTHS 2-4 (SEP → OCT 18)	Albertans will verify identity at scale	\$150,000
3	The Results Moment & Retention MONTHS 4-7 (OCT 19 → JAN)	The platform survives its event; users stay & engage	\$200,000
4	Provincial Density & Expansion MONTHS 7-12 (FEB → JUN 2027)	Alberta-wide reach + first organization adoption	\$250,000
5	Scale & Revenue MONTHS 12-18 (JUL → DEC 2027)	The market exists and will pay	\$300,000

CUMULATIVE VERIFIED-USER TARGETS

200 registered / 100+ verified gate → 1,000 verified (M1) → 3,500 (M2, by Oct 18) → 10,000 (M3) → 25,000 (M4) → 50,000 (M5)

ACTIVATION · AT SIGNING

\$50,000

Activation

RELEASED AT SIGNING · 1% EQUITY

200 registered users — including at least 100 verified users, with verification-funnel data documented and reviewed by both parties, is the proof gate that releases Milestone 1 and every milestone after.

WHAT THIS FUNDS

Activation funds incorporation and the shareholder agreement, advertising compliance, brand and creative production, the first paid acquisition tests, founder travel and the Calgary Stampede street activation, and acquiring the first 200 registered users. The Activation budget launches the first proof gate — it is not a product rebuild.

MILESTONE 1 · PROVE

\$50,000

Milestone 1

RELEASES WHEN

200 registered users — including at least 100 verified users exist, with verification-funnel data documented and reviewed by both parties.

WHAT THIS FUNDS

Milestone 1 funds the first month after the proof gate. The work: scale the channels that produced the first verified users, document cost-per-verified-user by channel, and earn the first Alberta media coverage. The target is 1,000 verified users.

MILESTONE 2 · ALBERTA VERIFIED — THE REFERENDUM SPRINT

\$150,000

Milestone 2

RELEASES WHEN

1,000 verified users · cost per verified user documented by channel.

WHAT THIS FUNDS

Milestone 2 funds the eleven-week referendum sprint — the proof the whole company rests on. The funding goes to paid acquisition across Meta, TikTok, Google, and Reddit; ten to fifteen Alberta creators on a balanced roster; province-wide town halls and street activations across Calgary, Edmonton, Red Deer, Lethbridge, Grande Prairie, Fort McMurray, and rural Alberta; PR and op-ed placement; content and weekly tally production; and the campaign coordinator running it all. The target is 3,500 verified users by Oct 18 (floor 2,500), with an upside of 10,000+ if partner distribution, media coverage, or public momentum accelerates.

MILESTONE 3 · THE RESULTS MOMENT & RETENTION

\$200,000

Milestone 3

RELEASES WHEN

3,500 verified users by Oct 18 (floor 2,500) · verification completion above 50% · 5 partner-led votes running · 3+ Alberta media stories.

WHAT THIS FUNDS

Milestone 3 funds the credibility event and what comes after. The work: Referendum Results Night in Calgary with a live shadow-vs-official dashboard and press invited; the comparison report published to a permanent public URL; the national PR push and founder media tour; the Alberta Verified Dashboard build and launch; sustained paid acquisition; partner campaign support for community organizations running their own verified votes; retention-side product work; and SaaS North (Ottawa) – the first business-to-government conference. October 19 is the activation event, not the business model.

MILESTONE 4 · PROVINCIAL DENSITY & EXPANSION

\$250,000

Milestone 4

RELEASES WHEN

10,000 verified users (floor 7,500) · 30-day retention above 25% · results-comparison report published · 2+ organization pilots started.

WHAT THIS FUNDS

Milestone 4 funds Alberta-wide density and first organization adoption. The work: a provincial road campaign through Calgary, Edmonton, Red Deer, Grande Prairie, Lethbridge, Fort McMurray, and rural Alberta; town halls and public events at scale; Android development and Play Store launch; the Alberta case-study package; LinkedIn government targeting; and the first organization or municipal pilots.

MILESTONE 5 · SCALE & REVENUE

\$300,000

Milestone 5

RELEASES WHEN

25,000 verified users · Android live on Google Play · at least one organization or municipal pilot underway (paid or unpaid).

WHAT THIS FUNDS

Milestone 5 funds the proof that verified civic participation becomes recurring revenue. The work: the first marketing/community hire; the self-hosted *Future of Democracy* event in Calgary; Series Seed preparation; sustained province-wide acquisition; Alberta Verified Dashboard scaling; the first paid contract (government or organization); and a Series-Seed-ready data room with documented unit economics.

REVENUE LOGIC

How verified civic participation becomes revenue.

NEAR-TERM REVENUE MODEL

- \$3/month consumer subscriptions
- Organization pilots
- Government or municipal pilots
- Sponsored civic reports or events, where appropriate
- Advertising as secondary revenue only

SUBSCRIPTION MATH

3,333 paid subscribers	≈ \$10,000 MRR
10,000 paid subscribers	= \$30,000 MRR
20,000 paid subscribers	= \$60,000 MRR

Milestone 5 is designed to prove that verified civic participation can become **recurring revenue**, not just user growth.

Equity Terms

\$5,000,000

PRE-MONEY

\$6,000,000

POST-MONEY

20%

FULLY-FUNDED

The investment of \$1,000,000 is offered at a **\$5,000,000 pre-money valuation (\$6,000,000 post-money) for 20% fully-funded.**

Proposed structure – equity released pro-rata with capital: rather than transferring the full 20% on signing, shares are issued as each milestone funds (1% at signing, then 1%, 3%, 4%, 5%, and 6% across Milestones 1–5 – totalling 20% at full funding). This protects both sides: the investor never holds equity beyond capital actually invested, and the company never sells a fifth of itself against funds that benchmarks may not unlock. Alternative implementations with identical economics (milestone-priced share issuances, or warrants vesting per milestone) are acceptable; **Final structure and documentation should be prepared by legal counsel in the form both parties agree is most appropriate.**

If the investor requires the full 20% on signing, the company requests a reciprocal commitment: milestones become obligations subject only to benchmark achievement (not discretionary), with an agreed remedy (equity clawback or buy-back at cost) for any milestone not funded after benchmarks are met.
